New base vehicle battery in 2011. No accident damage.

Things the current owners love about the vehicle:

Affectionately known as 'Daisy', the owners love way the van can be totally loaded up but she still drives with no problem. The bed is extremely comfortable (always used as a double). MPG is 30+, better on some trips.

Why the owner is selling: The owners are looking to sell the campervan due to lack of use. Although they love the lifestyle the motorhome brings, they feel they are not utilizing the vehicle enough.

General condition: This vehicle is in immaculate condition and has been well looked after by its owner (just one owner from new). The underside of one side cushion has water stains from the window leak, but this is not visible normally and there was no other damage. The owners have taken great pride in Daisy and she is an excellent example of a well-maintained Autosleeper motorhome.

Important Note: Whilst Highland Campervans is advertising this vehicle on behalf of the owner, perspective buyers should be aware that this will be a private sale between the seller and the buyer.
